"Pediatric Oral Pathology: From Soft Tissue Lesions to Canker Sores!!!" (9am-12pm)

Outline

This seminar will provide to the attendee with the most up-to-date information regarding the fascinating and emerging field of oral pathology in pediatric dentistry. The seminar will use case-presentation as the learning and discussion format and will cover the entire spectrum of the most common oral soft tissue lesions in infants, children and adolescents.

Objectives

After attending this seminar, the participant will be able to:

- Understand the importance of "building" a differential diagnosis based on the clinical presentation of oral lesions
- Learn the most common soft tissue lesions in infants, children, and adolescents
- Learn the most updated treatment for some of the most common oral conditions besides gingivitis and dental caries
-

"Dental protocols for medically compromised children" (1pm-4pm)

Outline

This seminar will provide to the attendee with the most up-to-date information regarding the fascinating and emerging field of oral medicine in pediatric dentistry. The seminar will use case-presentation as the learning and discussion format and will cover the entire spectrum of the most common medical issues in children with repercussions in the dental treatment. Diseases such as asthma, diabetes, congenital heart disease, autism, ADHD, and several syndromes will be discussed with special emphasis in the dental protocols for the treatment of patients with these conditions in the safest way.

Objectives

After attending this seminar, the participant will be able to:

- Understand the importance of the dental management of medically compromised children
- Learn the most common dental protocols for medically compromised children

Speaker Juan F. Yepes, DDS, MD, MPH, MS, DrPH, FDS, RSC(Ed)

Juan F. Yepes DDS, MD, MPH, MS, DrPH is a professor in the Department of Pediatric Dentistry at Indiana University School of Dentistry and an attending at Riley Children Hospital in Indianapolis, Indiana. Juan F. is also a clinical professor at the University at Buffalo. Juan F. is a dentist (DDS) and a physician (MD) from Javeriana University at Bogotá, Colombia. In 1999, Juan F. moved to the USA and attended the University of Iowa and the University of Pennsylvania where he completed a fellowship and residency in Radiology and Oral Medicine respectively in 2002 and 2004. In 2006, Juan F. completed a Master in Public Health (MPH), and in 2011 a Doctoral Degree in Public Health (DrPH) both with emphasis in Epidemiology at the University of Kentucky College of Public Health. In 2008, Juan F. completed a residency program in Dental Public Health at University of Texas, Baylor College of Dentistry. Finally, Juan F. completed a residency program and a master in pediatric dentistry at the University of Kentucky in 2012.

Juan F. is board-certified by the American Boards of Pediatric Dentistry, Oral Medicine, and Dental Public Health. He is an active member of the American Academy of Pediatric Dentistry, American Academy of Oral Medicine, American Academy of Oral and Maxillofacial Radiology, Indiana Dental Association, and American Dental Association. Juan F. is a fellow in dental surgery from the Royal College of Surgeons at Edinburgh. He is a member of the editorial board of Oral Surgery, Oral Medicine, Oral Pathology, and Oral Radiology and the associate editor of JADA.
